INTRODUCTION and GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1959 edition of the Edenton City Directory, which also includes the rural routes emanating from the Edenton post office.

This is the first Hill Directory of Edenton, and is completely standardized according to the policies and practices of the Association of North American Directory Publishers.

Confidence in the growth of Edenton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Edenton to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Edenton Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the Directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city and vicinity, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city and vicinity. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a progressive community like Edenton, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Edenton and on the Edenton Rural Routes, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Edenton and vicinity.

There are more than 700 of these Directory Libraries, installed and maintained in the chief cities of the U. S. and Canada through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which Hill Directory Co., Inc. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

EDENTON AND CHOWAN COUNTY

History

Situated in the northeast coastal area Edenton is noted for its historic charm and beauty, is one of the three oldest communities in North Carolina. Chowan County, smallest in the State, borders on picturesque Chowan River and western Albemarle Sound, with Edenton as its county seat and progressive business center.

Rich in history its citizens played important parts in defying the British Parliament, assisting the Revolutionary forces and launching the new State. During the War Between the States Edenton served as Union headquarters, after Roanoke Island fell.

Settlers came about 1660 and the village was called "ye towne on Queen Ann's Creek" until 1722, when it was incorporated as Edenton in honor of Royal Governor Charles Eden. Because the Governor lived nearby, Edenton was the unofficial capital of the Colony for about 40 years.

Among Edenton's immortals are Joseph Hewes, signer of the Declaration of Independence, Secretary of the Naval Committee and patron of John Paul Jones; Hugh Williamson, signer of the Federal Constitution; James Iredell, Associate Justice of the first United States Supreme Court; and Samuel Johnston, early governor and first United States Senator from North Carolina.

The ladies of Edenton made themselves heard by signing resolutions protesting British injustice to the Colonies at the famous Edenton Tea Party on Oct. 25, 1774.

At one time an important port, merchants exported pitch, tar, turpentine, lumber, tobacco, corn and salt meat and fish. While the area today remains primarily agricultural there is a steady increase in diversified industry. Jumbo peanuts make Edenton and Chowan the largest peanut market in the State. Cotton, corn, soybeans, tobacco, early and late truck, cantalopes and watermelons excel in fertile soil and are shipped to all markets. Hogs, cattle and other livestock are a major source of income.

Because of its proximity to raw products and its assets for pleasant living Edenton attracts industry. Light manufacturing, enjoying excellent relationships between labor and management, includes cotton mill, lumber and wood products, peanut and fish products, metal fabrication, machine shops, farm equipment.

Blessed with bounteous waters for industry and recreation, good climate, excellent labor, historic and progressive Edenton and Chowan County are ideally situated for recreation, business and industry . . . a good place to live, work and enjoy life.

Historic Homes and Buildings

Edenton's town and country homes are nationally known for their colonial authenticity and fine state of preservation. Most serve as private dwellings but some are opened to the public during home tours. Of interest are—Chowan County Courthouse, built in 1767, considered the finest Georgian court house in the South; Cupola House, ca. 1725; The Barker House, home of Penelope Barker who presided over Edenton Tea Party in 1774; Iredell House, built 1759, home of James Iredell, Associate Justice of U. S. Supreme Court; Joseph Hewes House, home of signer of Declaration of Independence, Secretary of Naval Committee, patron of John Paul Jones; St Paul's Episcopal Church, erected 1736; Sycamore Plantation, built 1660 by Thomas Norcom, oldest house in the State; Hayes Plantation, begun 1789, distinctive traditional plantation overlooking Edenton Bay; home of Sam-

"Chowan County Courthouse, built in 1767, is considered the finest Georgian court house in the South. It has been in continual use since its completion. The second floor assembly room is believed to be the largest panelled room in the colonies and one of the most beautiful."

**Do your employers furnish you with
the latest edition of the City Directory?**

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

HILL'S EDENTON

Directory of Householders, Occupants of Office Build-
ings and Other Business Places, Including a
Complete Street and Avenue Guide

1959

Copyright, 1959, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word "street" is not used in addresses. Where a designation "av," "cir," "ter," etc. does not appear, the designation "st" is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.
